Subject: FW: Final Agency Review SAN 5719.8 - NSPS for Oil and Gas

David,

Here is a suggested email to Susan letting her know our recommendation for FAR for the new source performance standards (NSPS) for Oil and Gas (SAN 5719.8 - NPRM - "Technical Rule"). We have not completed our review, so these are our initial and expected issues - we may run across something else, which we will elevate, as necessary.
